## NEW QUALITY OF EMBOSSING TECHNOLOGY

The EIR (embossed in register) technology we are using allows us to achieve higher resolution of embossing, meaning higher density of details enriching surface of planks. LEGNAR ULTRA has more significant knots, grains, clear figure and small indentation that create a real wooden characteristic of the plank. Matte finishing of planks underlines all technological features giving a beautiful impression of a natural floor.

**HOME PLAYGROUND...** Nice and silent in everyday use vinyl flooring brings comfort and serenity to everyday life.

**HOME CAFE...** HD Mineral Core primarily means extremely strong locking system which gives the whole flooring system a maximum durability. Despite of small thickness of the plank our locks are 2 times stronger than average LVT locks available on the market.

**HOME SPA...** No need to be scared of water. Our floors are 100% waterproof. Frequent cleaning or spilled drinks are no longer dangerous to your floor. Without concerns you can connect your kitchen floor with the rest of your living space.

**WITH NO BOUNDARIES ...** HD Mineral Core also means high dimensional stability of the floor even in very sunny rooms. We offer at least 2 times higher dimensional stability of our floors in comparison to traditional LVT.

**HOME OFFICE...** Very low thermal resistance of our floors means more effective use of the underfloor heating system. Thanks to HD Mineral Core less fuel is needed for floor heating and over 60% less carbon is released into the atmosphere from one household in Europe, each year.

# HD MINERAL CORE®

In our laboratories we've discovered an innovative combination of natural rock minerals and advanced polymers.

Carefully selected proportion ensures maximum performance of the floor.

Our HD MINERAL CORE® provides extreme durability which we confirm by giving 12 and 15 years guarantee.

Hardness and durability of natural rock minerals

The flexibility of modern polymers based on carbon molecules

# DESIGN BEVEL

## NEW LOOK

A NEW DESIGN BEVEL inspired by true, classical wooden boards. The new bevel creates continuous design of planks. One plank flow smoothly into another giving the floor premium finishing. This perfect resemblance of wooden floor creates a warm, natural feeling. AFIRMAX designers reproduced the most welcomed and demanded bevel among all flooring. This bevel is available in Legnar Ultra and Legnar collection.
